1. Introduction

Article 18 of Regulation (EU) No. 913/2010 obliges the Management Board of the RFCs to publish a list and characteristics of terminals belonging to the specific RFC in the CID.

In accordance with Article 2.2c of Regulation (EU) No. 913/2010, 'terminal' means "the installation provided along the freight corridor which has been specially arranged to allow either the loading and/or the unloading of goods onto/from freight trains, and the integration of rail freight services with road, maritime, river and air services, and either the forming or modification of the composition of freight trains; and, where necessary, performing border procedures at borders with European third countries".

According to Implementing Regulation (EU) 2177/2017, operators of service facilities, hence also terminal operators, are obliged to make available detailed information about their facilities.

The purpose of this CID Book 3 is to give an overview of the terminal landscape along the Mediterranean Rail Freight Corridor while also including relevant information on the **description of the terminals via links**.

Furthermore, in accordance with Article 8.7 of Regulation (EU) No. 913/2010, the RFCs set up the Terminal Advisory Group (TAG). For details, please refer to Book 1.

This Book 3 is harmonised across all corridors. The contents of this CID Book 3 are for information purposes only. The Mediterranean Rail Freight Corridor cannot guarantee that the terminals taken into account in this Book 3 are exhaustively listed and that the information is up to date. The Mediterranean Rail Freight Corridor cannot guarantee the correctness and up-to date-ness of the information provided by the terminals concerned.

2. Terminals

This chapter includes a global overview of the terminals on Mediterranean Rail Freight Corridor with a map of locations together with the list of terminals.

2.1. Terminal overview

This Terminal overview indicates the terminals along the Mediterranean Rail Freight Corridor.

2.2. Terminal list

The Terminal list gives a summary of the terminals along the Mediterranean Rail Freight Corridor, together with a link to a detailed Terminal Description, if provided by the terminal.
